

# Announcement (Front page) Ticker

Here you can set a news ticker to run across the [Front page](#) of your Moodle site.

## To setup your ticker,

- 1) On your site <https://uavpilottraining.a3uav.com/courses/?redirect=0> go to home page
- 2) Scroll down go to Administration setting section and search for **ticker** as shown

The screenshot shows a web browser window with the URL <https://uavpilottraining.a3uav.com/courses/?redirect=0>. The main content area displays four course cards: "Test Course", "BASIC Drone Course", "Drone Education - Fre...", and "Recreational Drone (U...". Each card has a "Course >" button. On the right, the "Administration" sidebar is visible, showing a search bar with the word "ticker" entered and a "Search" button. The sidebar also lists various settings categories like "Front page settings", "Users", "Filters", "Reports", "Backup", "Restore", "Question bank", and "Site administration".

5) Enter your desired ticker and hit the **Save Change** button. *That's it*
